

ETC INTERNATIONAL

Capabilities Brief

FY17

Overview

- History and Legacy
- Approach to Engagements
- Capabilities
- Training Areas
- Sustainment Services
- Recent Projects
- How to Engage ETC
- Point of Contact

History & Legacy

- ETC International ("ETC") was founded to continue and grow the spirit and legacy of the US Navy's Expeditionary Training Command (ETC, hence our namesake) and Maritime Civil Affairs & Security Training (MCAST) Command
- Talent pool includes more than 160 former ETC / MCAST personnel with security assistance engagement experience
- Replication of ETC / MCAST capabilities began in 2012
- Founder Chris Just was the first active duty personnel attached to Expeditionary Training Command in 2006

ETC Personnel Experience

Approach to Engagements

- Coordination – As early as possible, we coordinate with Case Managers, Combatant Commanders (COCOM), and Embassy Security Cooperation Organizations (SCO)
- Rapid Response – Immediate to 24-hour response to requirements and 24- to 48-hour turnaround of Rough Order of Magnitude (ROM) estimates
- World-Class Teams – ETC's Training Team members are hand-picked to form "A Teams", composed of personnel who are not just subject matter experts, but are regional security assistance experts as well.

Capabilities

- Site Surveys
- Mobile Training Teams (MTTs)
- Sustainment Services
- Operational Assessments / Gap Analyses
- Advisor / Mentor Engagements
- Resident International Military Student (IMS) Courses, including Field Studies Program (FSP) implementations

FY15 Training Areas

- Small Boat Operations
  - Small Boat Operations
  - Visit, Board, Search & Seizure (VBSS)
- Maintenance
  - Preventative Maintenance Management
  - Small Boat Maintenance
  - Vehicle Maintenance
  - Aircraft Maintenance
  - Weapons Maintenance
- Surface Warfare (SW)
  - Complete Ship Lifecycle Training
  - All Officer & Enlisted SW Skill Areas (i.e., Damage Control, Engineering Plant Management, Bridge Operations, Navigation, Seamanship, Navigation, etc.)
- Professional Development
  - Command & Control (C2) Leadership
  - Train-the-Trainer (T3)/Basic Instructor
  - Leadership Principles (available for junior and senior enlisted and officers)
- Security & Weapons
  - Small Arms
  - Crew-Serve Weapons
  - Port Security
  - Vulnerability Assessment
  - Marksmanship
- Medical
  - Tactical Combat Casualty Care (TCCC)
  - Basic & Advanced Medic

FY16 Training Areas Additions

- Maritime / Coastal Operations ^ Surveillance
  - Basic Maritime Operations Center (MOC) Operations
  - Operations / Intelligences (Ops Intel) Fusion
  - Joint / Interagency Operations Tabletop Exercise (TTX)
- Riverine Patrol Craft Operations
  - Riverine Patrol Craft Leader
  - Advanced Riverine Patrol Craft Operations
- Air Warfare (CNATRA Pipeline)
  - Aviation Preflight Indoctrination (API)
  - Undergraduate Military Flight Officer (UMFO) Primary I and II
- Law Enforcement / Emergency & Crisis Management
  - Criminal Drug/Narcotic Investigation & Interdiction
  - Basic Criminal Investigations
  - Basic SWAT Operations
  - Emergency Management/Incident Command System (ICS)
- Land Warfare / Infantry Skills

- English Language Training (ELT)
  - English Language Training (ELT)
  - American Language Course Placement Test (ALCPT)
- Air Warfare
  - Unmanned Aircraft System (UAS) / Unmanned Aerial Vehicle (UAV) Familiarization
  - UAS / UAV Concept of Operations (CONOPS)
- Security & Weapons
  - High Value Asset (HVA) / OPLAT Physical Security & Force Protection
- Land Warfare / Infantry Skills
  - Civil Affairs Operator

Full course offerings and details are available in the ETC FY17 Course Catalog

Sustainment Services

- To support Total Package Approach (TPA), ETC offers sustainment support services / packages for most defense assets.

- The sustainment packages are customized solutions and can be one-time, periodic, or ongoing sustainment programs.
- Example services: overhauls, reactivation, repair, parts support, maintenance, familiarization training, full lifecycle support, etc.

Recent Projects

Small Boat Maintenance MTTs in Cambodia for the National Committee for Maritime Security (NCMS)

- Team Lead was regional expert with existing NCMS and Royal Cambodian Navy (RCN) relationships
- 4 of 6 personnel were former ETC / MCAST, including ETC Reserve CO
- Returned 5 RHIBs to 100% operational readiness
- At end of 1st MTT, immediately invited to return for 2nd MTT 3 months later

Recent Projects

Surface Warfare (SW) Operational Assessments for Senegalese Navy Patrol Craft

- SW Areas covered: Navigation, Bridge Ops, Combat Systems, Weapons, VBSS, Engineering, Maintenance, Damage Control, Shipboard Firefighting, Shipboard Medical, Search & Rescue (SAR), Deck Handling/Seamanship
- 2 of 8 personnel were former ETC / MCAST
- 21 days from funding to wheels up
- 17-page After Action Report (AAR)

How to Engage ETC

1. Security Cooperation Organization (SCO) and/or Case Manager communicates requirement to ETC
2. ETC and Case Manager choose contract vehicle
3. ETC provides ROM estimate and draft Statement of Work (SOW) to Case Manager
4. Case Manager provides SOW to contract vehicle's contract office
5. ETC formally provides estimate via the Contracting Officer's Representative (COR)
6. Upon approval, funds are MIPRed and ETC executes the project
